
St. Andrews Parish Parks & Playground Commission

Policy Manual

Section: 5 **Topic:** Communicable Diseases

Policy Number: 3

Page: 1 of 1

In cases of any staff member known to have any identifiable highly communicable disease, SAPPSC must take into account the safety of all its staff members and volunteers, as well as the health and dignity of the afflicted staff member.

Each such situation will be dealt with on a case-by-case basis by the Executive Director. To help him make his decision, the Executive Director may require information from the staff member's physician, local health department personnel, appropriate SAPPSC staff or Commission members, and/or any others deemed necessary.

An afflicted staff member will not be excluded from employment on the basis of the disease alone.

The identity of any staff member with a highly communicable disease will remain confidential as far as is practicable.
